Magellan™ Safety Products LATEX FREE

All Magellan™ Safety Products include many innovative features:

- A choice of easy, one-handed activation methods that minimizes technique change and in-service time
- A fixed safety shield that eliminates the ability to remove the safety device which increases OSHA compliance
- Bevel orientation so that if the safety shield is up, the needle bevel is up
- An audible and tactile confirmation click that confirms the safety device has been activated for ultimate protection
- Robust safety shield that completely encases the needle and remains in effect after disposal
- Color coded hub to correspond with ISO standards
- A full range of gauges and lengths
- Manufactured in the United States

Magellan™ Hypodermic Safety Needles - Sterile

- Needle-based safety technology
- Intuitive, one-handed activation
- Bevel orientation, so that if safety shield is up, the needle bevel is up
- Self-leveling needle sheath
- Compatible with any standard luer lock syringe

Magellan™ Safety Blood Collection Products

Magellan™ Safety Blood Collection Device - Sterile

- Ready to use 3-in-1 safety design
- One piece safety blood collection needle and blood tube holder combination that is permanently attached
- Intuitive, one-handed activation
- Fixed safety shield that is not an accessory
- Bevel orientation, so that if safety shield is up, the needle bevel is up
- Single use to help comply with OSHA regulations
- Contains latex

Code	Description	Box/Case
8881227121	21 x 1 1/4" Safety Blood Collection Device	50/300
8881227122	22 x 1 1/4" Safety Blood Collection Device	50/300

Monoject™ Safety Syringes LATEX FREE

All Monoject™ Safety Syringes offer the following features and benefits:

- Barrel-based safety technology
- Robust safety shield that covers the entire needle during transport and after disposal
- Transport position that allows clinicians to safely transport medication and eliminates the need to recap the needle
- Rigid pack packaging that may be autoclaved or gas sterilized (Insulin and TB are available only in soft pack packaging)
- Luer lock tip is compatible with any standard needle (up to 1 1/2" length) making the combination OSHA compliant

3mL Safety Syringes - Sterile

- Rigid pack packaging
- Luer lock syringe tip

SharpStar™ Safety In-Room™ Sharps Containers

The Covidien SharpSafety Division is committed to providing real solutions for all of your sharps disposal needs. The SharpStar™ family of containers is engineered with controls to prevent overfilling and limit accidental or intentional access to the container contents. These containers are offered in multiple sizes from 5 quarts to 4 gallons to accommodate the increasing volume and size of safety engineered sharps devices used today.

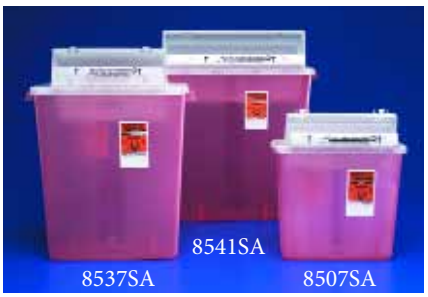
Disposal and Processing Recommendations:

- All non-gasket sharps disposal containers manufactured by Covidien are autoclavable.
- All trace chemotherapy, hazardous and non-hazardous pharmaceutical waste must be incinerated.
- When incinerated properly, containers only give off carbon dioxide and water.
- Material Safety Data Sheets (MSDS) are not needed for Covidien sharps disposal containers. They contain no heavy metals or DEHP and they are Latex Free.

Covidien Sharps Disposal containers meet or exceed the OSHA Bloodborne Pathogens Standard and conform to NIOSH/CDC recommendations. Contact your Covidien representative to begin an evaluation.

SharpStar™ Safety In-Room™ Sharps Containers

The SharpStar™ family of containers is engineered with controls to prevent overfilling and limit accidental or intentional access to the container contents. These containers are offered in multiple sizes from 5 quarts to 4 gallons to accommodate the increasing volume and size of safety engineered sharps devices used today.



SharpStar™ In-Room™ Sharps Containers with Counter Balanced Lids

Minimizes the potential for overfilling by stopping in the "FULL" position when it reaches maximum capacity.

- Unique lid design limits accidental or intentional access to container contents for pediatric and high-risk areas.
- Allows for visual monitoring.
- Economical forced horizontal drop maximizes container volume.
- The SharpStar IV™ container has an expanded disposal opening to safely accept the largest sharp used in a patient's room.
- ***OSHA Regulation 29 CFR 1910.1030(d)(4)(iii),*** "During use, containers for contaminated sharps shall be maintained upright throughout use..."

Sharps-A-Gator™ Large Volume Containers, Floor Stands, Brackets & Carts

Sharps-A-Gator™ Large Volume Sharps Containers

- Designed for the convenient disposal of large instruments and high volumes.
- The versatile lid on the 7 and 10 gallon containers features both a wide opening for large instruments and an integrated sharps port for smaller items.
- Clear lid keeps contents and fill level visible for increased safety.
- Convenient molded carrying handles to aid in lifting heavy, filled containers for final disposal.

PG II-Rated Large Volume Containers

The PG II-Rated containers allow for transport of sharps, cultures, and stocks. This rating eliminates the need for costly secondary packaging and provides a solution for safe disposal of sharps, chemotherapy waste, cultures, and stocks.

PG II Sharps Containers and PG II Chemotherapy D.O.T. Compliant

- Multiple sizes (8, 12, 18 gallon) for containment of disposable contaminated sharps and trace chemotherapy waste.
- Properly labeled ID# "UN3291", "PG II" and "Regulated Medical Waste". Eliminates the need for costly D.O.T. compliant secondary packaging during transport of sharps, cultures, and stocks when transported by a private or contract carrier.
- Absorbent pad helps contain excess fluid.
- Gasketed lid provides leak resistance.
- Label differentiates containers from those not D.O.T. compliant.
- Hinged lids or sliding lids allow for temporary and final opening and closing.
- Molded-in carrying handles allow for easier transport.
- SharpsCart™ foot pedal carts and floor brackets provide extra stability and easier transport during use.
- Sliding gasket lids have a round 6" opening to accomodate up to 1000mL bottles.

Trace Chemotherapy Sharps Containers

ChemoSafety™ Containers with Sliding Lid or Hinged Lid

- For the disposal of trace chemotherapy waste.
- Sealing gasket lids provide leak-resistant containment of fluid.
- Absorbent pad in bottom of container absorbs excess liquid.
- Adjustable sliding lid reduces the possibility of aerosolization and accommodates chemotherapy waste of various types and sizes.
- Available carts with wheels and built-in carrying handles for easy transport and lifting of heavy, full containers.
- Containers provide temporary and final locking closure for disposal.
- Nestable containers save valuable storage space.
- Sliding gasket lids have a round 6" opening to accomodate up to 1000mL bottles.

Multi-Purpose Containers

Multi-Purpose Sharps Containers

- Adjustable rotor opening or hinged lids accommodate a variety of sharps sizes and provide temporary and permanent closure.
- Easy, simple assembly.
- Containers lock for final disposal.
- Nestable containers save valuable storage space.
- Available holders and brackets secure containers wherever needed.
- Plastics and pigments are safe to autoclave or incinerate.
- For use on countertops or mounted on the wall.
- Economical horizontal drop maximizes container volume.
- Large horizontal openings accomodate larger syringes.

RCRA Hazardous Waste Containers

8601RC

8602RC

8605RC

RCRA Hazardous Waste Containers

- For the disposal of hazardous pharmaceutical waste.
- RCRA hazardous waste label meets EPA satellite accumulation labeling requirements.
- White & black color easily distinguished from Sharps, Trace Chemo and other disposal containers.
- Tamper evident label helps deter tampering during final disposal.
- Most are PGII rated, meets D.O.T. requirements for transport without secondary packaging.
- Leak-Resistant gasket and absorbent pad help contain liquid contents should a primary container break.
- Locking floor carts.
- All containers come with an absorbent pad to help contain excess fluid.

Pharmaceutical Waste Disposal Containers

PharmaSafety™ Sharps Disposal Containers

- For the disposal of non-hazardous pharmaceutical waste.
- White and blue color easily distinguished from Sharps, Chemotherapy and other disposal containers.
- Leak-resistant gasket and absorbent pad help contain liquid contents.
- Tamper evident label helps deter tampering during final disposal.
- Sturdy, rigid polypropylene construction provides excellent impact and leak resistance (unlike cardboard or fiber) to contain heavy vials, IV bags, and more.
- Two-gallon, three-gallon and eight-gallon capacity sizes are suitable for multiple locations - nursing units, med carts, anesthesia, pharmacies, etc.
- Secure, hinged lid with temporary and final closure accepts larger, bulkier waste; closes temporarily between uses; locks for final disposal.
- Nestable containers save valuable storage space.
- Locking wall-mounting brackets and floor carts available allow for point-of-use placement and one-handed disposal; increases mobility, stability, and security.
- All containers come with an absorbent pad to help contain excess fluid.
